IMPIANTO DI ILLUMINAZIONE - LEGENDA	
	Plafoniera idonea all'installazione nel controsoffitto a maglia quadrata 60x60 cm costituita da corpo in lamiera d'acciaio verniciato con polveri epossidiche di colore bianco, dotata di ottica idonea all'utilizzo di videoterminali e diffusore inferiore in metacrilato microprismatizzato. La suddetta è intesa corredata di alimentatore elettronico dimmerabile DALI e lampade a LED tipo 1x34W, classificabili nel gruppo "RG0" ai fini del rischio per la sicurezza fotobiologica (IEC EN 62471-2010). Grado di protezione non inferiore ad IP55.
	Corpo illuminante idoneo all'installazione nel bandierista del controsoffitto composto da un corpo in acciaio e schermo inferiore in polycarbonato prismaticizzato; il tutto adatto all'utilizzo con videoterminali. Il suddetto è inteso corredata di alimentatore elettronico dimmerabile DALI e lampade a LED tipo 1x34W, classificabili nel gruppo "RG0" ai fini del rischio per la sicurezza fotobiologica (IEC EN 62471-2010). Temperatura di colore: 4.000 K - Grado di protezione non inferiore ad IP20.
	Plafoniera idonea al montaggio a parete, a soffitto e a bandiera dotata di pannello indicante la via d'uscita di tipo pienamente rispondente alle normative vigenti con dimensioni tali da consentire una perfetta comprensione ad una distanza non inferiore a 20mt, corredata di sorgente luminosa a LED, di gruppo miniverter completo di batterie ricaricabili aventi autonomia non inferiore a 2 ore. La suddetta dovrà garantire la ricarica completa entro 12 ore, risultare completa di modulo di interfaccia con il sistema di autodiagnosi centralizzato, led di segnalazione stato e cablaggio per il funzionamento permanente. Grado di protezione non inferiore ad IP55.

Grado di protezione non inferiore ad IP40.
	Apparecchio illuminante alimentato tramite gruppo di continuità statico per illuminazione di emergenza e cavi resistenti al fuoco 3 ore.
	Apparecchio illuminante dotato di alimentatore elettronico dimmerabile DALI per il controllo dell'intensità luminosa.
	Pulsante unipolare agente sul sistema di regolazione dell'intensità luminosa di tipo "DALI" completo di telaio, eventuali tappi ciechi e piastra in tecnopolimero appartenente alla serie modulare da incasso scelta dalla Committenza.
	Multisenore di luminosità e presenza (tipo "DALI"), idoneo all'installazione a soffitto con modalità di funzionamento master/slave liberamente configurabile.
